**Southern African Young Scholars**  
**Publishing Grant 2015 — 2016**

*Transformation*, an internationally accredited journal established in 1986, is seeking to publish the work of young Social Sciences and Humanities scholars in the southern African region. The journal is offering a grant of R5,000.00 for contributions from authors under the age of 35 that are accepted through the journal's peer review process. This publishing grant is available until the end of 2016.

Young scholars are invited to submit original high quality articles of not more than 8000 words, based on either their thesis or other recently completed research. The journal welcomes articles of a critical nature, across disciplines. We are interested in articles concerned with any aspect of transformation in the southern African region, including those addressing processes of discrimination and exploitation, and to ways of resisting and addressing discriminatory and/ or exploitative policies, processes and agents.

Please mention in your submission mail to the editors that this is to be considered for our Young Scholars Publishing Grant. Awards will only be made to authors who request their articles are submitted under this publishing grant.
